According to the materials of the State Bureau of Investigation, the Prosecutor General's Office reported suspicions to three NABU employees who committed traffic accidents with victims.

In one incident, a police officer, while leaving a secondary road in Kyiv, collided with a vehicle traveling on the main road. As a result of the collision, the police officer's car continued to drive outside the roadway, where it hit a pedestrian. The man received serious injuries that led to the amputation of his left lower limb.

In another incident, a law enforcement officer driving on the 61st km of the Kyiv-Odesa highway while overtaking a passing vehicle did not choose a safe speed and drove off the roadway, where the vehicle overturned and then collided with a gas station building. As a result of the collision, the passenger of his car received serious injuries - multiple fractures, a ruptured spleen, and a contusion of the brain.

In the third incident, a law enforcement officer, driving a service car at a controlled intersection in Kyiv, hit a pedestrian who was crossing the roadway at a crosswalk on a green traffic light. As a result of the collision, the victim sustained moderate injuries.

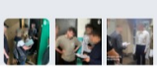

According to the results of the pre-trial investigation, all three defendants were notified by the Deputy Prosecutor General of suspicion of violating traffic safety rules, driving vehicles that caused moderate and severe bodily injuries to the victims (Part 2 of Article 286 and Part 1 of Article 286 of the Criminal Code of Ukraine).

The issue of whether to impose preventive measures on the suspects is currently being decided. The prosecution will request that at least two of them be kept in custody.

If law enforcement officers are proven guilty of committing serious crimes, they face up to 8 years in prison.

Procedural management is carried out by the Kyiv City Prosecutor's Office and the Kyiv Regional Prosecutor's Office.
